Eighteen pedestrians with heavy eyes, swollen risages, feet much "balled up" with cantankons blisters, and joints creaky from too much anipulation, still wound the tanbark track at adison Square Garden when the beautiful lay sun resumed his duties this morning. Nine of them had covered over two hundred iles, and the other mine still chased the ignis. ms of the go-as-you-please, though there was

hope for fame or fortune for them. Dan Herty, who runs like an eight-day clock one of this variety of races, still pounded one mechanically, but he was running on a with the fleeter-footed George Cartwright, ad the two led the procession of weary ones.

THE BOSTON BOY'S CHANCE.
At 2.35 this moraling the Englishman retired his hut for a wink of sleep, and the tireless enton boy picked up his ungainly feet for a

me and ran 5% miles in the next hour. CARTWEIGHT MAKES A SPURT. When Cartwright returned to the track he had

ost his lead of 436 miles and was 134 miles beaind the bean-eater. By dint of rapid spurting he closed the gap, and from 4.30 on the two men ran abreast, though Cartwright was still roubled with drowsiness, as he was yesterday. EXIT DAN BURNS.

Dan Burns, the young man who schieved ame by racing against several relays of horses at Chicago and beating them, and who has competed in forty six-day races, lost ambition at 7.30 last evening and retired from the race th 185M miles to his spedie. He had noted ntrance fee for the fun of trotting around the tanbark ellipse 1,326 times.

SAM DAY OUT, TOO. Sam Day, the fat and jolly little Britisher whose apostrophe to "Oh. Mary !" has rent the air about every go-as-you-please these five years, gave it up at 8 o'clock. He had recorded 156% miles when he fell into the bouillon.

OTHERS WHO COULDN'T STAND IT Spicer, the young man whom Archie Sinclair brought over from Albion, pegged out on his 146th mile and went to bed at the Putnam House, and Emil Paul, the quail eater and eateror, retired in the gloaming of the early morning with 1301/2 miles of sawdust behind

Miller and Johnson, who are ebony ornaments to the kalsomining and stove-polishing professions respectively, but who have not covered themselves with much glory in the pedestrianic arena, were still in the ring when the factory bells began to ring this morning, though Miller got a five-dollar bill from an admiring spectator at daybreak and was anxious to go and spend it.

MRS-WILLER WAS THE BOSS. His wife stood guard at the door of his hut and steadfastly refused entrance to him. "I've got a pain in my back and I can't go

on," he said plaintively. So did I have a pain in my side when I sarned the \$25 to get you into this race," said the stern better half, and she took the banksote from her Cerberus and shoved him onto the track again.

J. Sullivan, the winged clothespin from the State of Blaine, with the aid of chubby Petey Golden, the west-side athletic club man, made

the only excitement of the night.

The perambulating wind-mill made a spurt and as he endeavored to pass Petey one of his sweeps collided with the stubby form of the latter. War ensued, but just as the irate Golden was about to knock the materialized shoet back into the spirit land peacomakers interfered and the carnage was averted.

HEGELMAN ON THE RUN. Pete Hegelman, still in third place, ran with

rete liggilman, still in third piace, ran with considerable clasticity, though his eyes were very yeary.

Lefty took ninety minutes' sleep during the light and was in better form than aither of the others, and Lepper Hughes, though he was eighth in the race, was only twenty-seven miles behind the twin leaders, and was in splendid form and full of faith in his ability to win the race.

At 6 o'clock Herty and Cartwright stood even.
at 288 miles 7 laps.

CLORE ON LITTLEWOOD'S RECORD.

This was forty-five miles behind Charlie nowell's record, but only six miles behind the soure of George Littlewood at the same hour in his record-smashing race of last November.

It will be recalled that Littlewood was quite put of sorts on the third day of his great race, but pan 623% miles in 142 hours. Herty is a steady and sure a traveller as ever competed in such a surface, and Cartwright is swifter than Littlewood. CLOSE ON LITTLEWOOD'S RECORD.

BIG CHANCES FOR THE LEADERS. If both these men keep on their feet there is every reason to believe that the record will be broken and one of them win the \$1,000 special

prize offered for that feat, as well as the Richard K. Fox diamond belt for the championship of R. Fox diamond but the world.

Peter Hegeiman, the slender watchmaker, was only two and a half niles behind the leaders at this hour, and William Smith, the Philadelphian, and George Connors, the English youth, were close enough behind to make their performances interesting to those in front.

6 o'cLock score. The score at 6 o'clock was like this; Herty, 233 miles 7 laps; Cartwright, 233.7, Hegelman, 235.3; Smith, 219.3; Connors, 216.3; Golden, 299; Glick, 206.3; Noremac, 205.2; Hughes, 205.7; Adams, 190.6; Nelson, 178.5; Nolan, 175.7; Sullivan, 173; Dillon, 169.5; Taylor, 168.3; Johnson, 162.7; Miller, 137.1;

Mara, 129.5. Cartwright retired to his quarters to be rubbed into wakefulness at a little after 6 o'clock, and while he was absent Dan Herty made the best of his opportunity and put a mile and a half of sawdust between him and his rival, while Hughes lumbered along and overtical, who were indulging in the luxury of a chop.

The 7 o'clock.

At 7 o'clock.

The 7 o'clock score for the nine leaders was as follows: Herty, 238 miles; Cartwright, 236.5; Hegelman, 228.6; Snith, 222.1; Connors, 218.6; Golden, 213; Glick, 208.6; Noremac, 200.7; Hughes, 212.2.

HOPES OF THE BOSTON BOY. HOPES OF THE BOSTON BOY.

Herty ran 605 miles in Littlewood's race, and he might have done even better than that had there been any inducement to do so. But he had no hope of beating Littlewood, and only strugpled to maintain the second place in the race.

It is generally conceded that he will, win this race, no socident happening to him, and with an extra \$1.000 prize before him he has certainly a large inducement to surpass all his former performsances and beat the record if he can. It would be eighteen miles better than his performance of last Fall.

8 O'CLOCK SCORES.

8 O'CLOCK SCORES. 8 o'clock scores.

At 8 o'clock the leading scores were: Herty,
242 miles 2 laps; Cartwright, 240.2; Hegelman 231.7; Smith, 224.7; Connors, 220.0;
Golden, 314.7; Glick, 212; Noremac, 212.6;
Hughes, 216.7.

9 o'clock scores. The leading 9 o'clock scores were: Herty, 247 niles 1 lap; Cartwright, 244.7; Hegelman, 137; Smith, 230; Connors, 223.4; Golden, 118; Glick, 215.3; Noremac, 217.5; Hughes,

CARTWRIGHT A VICTIM TO DROWSINESS. Again and again he wooed sleep on his cot, but despite his drowsiness Morpheus would not come to his relief, and the sprinter stumbled heavily and wearily. He fell a victim to the plodding perseverance of Herty and slowly dropped behind during the morning hours, the veteran trainer.

THE "LEPPER'S ' PINE SPURT. At 7 o'clock Hughes, the Lepper, began a fine spurt and did not step until 2.04, having made just thirteen miles in 2 hours and 4 minutes. Hughes is in fine spirits and great things are predicted of him in this race.

11 o'clock scores. The scores at 11 o'clock were: Herty, 256 miles 3 laps; Cartwright, 251.2; Hegelman, 245.5; Smith, 238.5; Hughes, 234.6; Connors, 227.6; Golden, 226.6; Noremac, 285.1; Glick, 219.6.

SHE RENOUNCES THE WORLD.

Miss Kate Drexel Enters the Order of the Sisters of Mercy. PAPECIAL TO THE WORLD, 1

PHILADELPHIA, May 7. - Miss Kate Dresel, the second daughter of the late Francis A. Drexel. who left \$6,000,000 to each of his three daughters, has practically renounced the world. The young lady to-day entered as a postulate, or earnest secker of the order of the Sisters of Mercy, in the mother house of the order at Pittsburg. This is not exactly equivalent to entering the order. but those who know Miss Drexel know that this act amounts to a complete renunciation of her family, of her surviving sisters and her dear

friends and her great wealth.

Miss Drexel has meditated this step for som Miss Drexel has meditated this step for some time, though the fact has been kept very quiet. She is well known as the most attractive of the three sisters. The youngest sister, now Mirs. E. De Murrell, who was married a few months ago, and her unmarried sister, Miss Lizzie Drexel, will sail from New York for Europe tomorrow with their uncle, A. J. Drexel.

Miss Drexel attended mass at St. John's Roman Catholic Church in this city yesterday morning, and it was there that she elected to part from the few most intimate friends who knew of her purpose. After finishing her devotions she kissed all her relatives, and, accompanied by two faithful maids, was driven to the depot, where she took the train for Pittaburg.

She arrived at the convent last night and entered formally on her new life there.

MINNEAPOLIS, Minn., May 7.—The complica-tions in the great wheat-steal conspiracy, whereby an elevator in which C. A. Pillsbury is prominently interested was robbed of many thousand bushels of wheat, were deepened to-day by the disappearance of D. C. Moak and E. A. Whiting, the alleged chief conspirators. It has been an open secret for a day or two that warrants are out for their arrest. Harley and Holcomb, who are under arrest, will turn State's evidence. This frightened Moak and Whiting, the members of the defunct

Whiting, the members of the defunct brokerage firm.

With the flight of the partners, rumors are revived that the Company did not want to prosecute Moak and Whiting for reasons at this time unknown, and a tip was given them that their conspicuous absence would be the only means of preventing their prosecution. This, however, is only one of the many rumors that gossips are nursing. More startling developments are expected. Harley and Holcomb are comparatively small game.

A PRIVATE DETECTIVE'S DISCOVERY.

An Alleged Conspiracy to Fix Gnilt on Two Innocent Man.

Farmer Umberger in Somerset County a few weeks ago. David and Joe Nicely are awaiting trial, charged with the crime. The detective alleges that a scheme has been concocted to fasten the crime on two innocent persons. It is the intention, he says, to arrest Collins Hamilton and Joseph Hoffman a few days before the ton and Joseph Hoffman a few days before the trial. These men resemble the Nicely boys, and Hamilton was once before arrested on suspicion. In the house of Hamilton will be discovered a gray wig similar to that worn by one of the robbers, and in the house of Hoffman one of the stolen purses, containing \$11,000 of the \$13,000 stolen. The scheme, the detective alleges, is to go before the Court, present the wig and purse and ciaim that the Nicely brothers are innocent and that Hamilton and Hoffman are the criminals.

About two months ago death again visited the little family circle of the Wrights.

The mother of the young man, to whom he was devotedly attached, died.

The double grief unhinged his mind, which was already trembling in the balance.

He mourned for his sister and his mother with a pitcous grief. His family thought it best to engage an attendant to be with him fearing that despair might cause him to do himself some injury.

fully and pleasantly with his sister, Miss Bella Wright.

Other members of the family present were Mr. Alexander Wright, the father, a manufacturing ieweller, of 10 East Fourteenth street, and a younger brother.

They live in the fashionable boarding-house 142 Madison avenue, occupying apartments on the tou floor.

Young Wright went to his room, opened his Bible and read it for awhile. Then he turned down the page of the chapter he had been reading and made his way to the roof by climbing through a scuttle. No one discovered him.

He walked to the edge of the roof, looked out on the darkness and then jumped.

Falling from such a height, his death was instantaneous and without pain.

He fell on the sidewalk near the high stoop, landing on the left side of his head. His skull was fractured and most of his bones were broken.

A group of awed people gathered around his

in dress goods. People do not realize than this fashion dates from some six hundred years ago, when French and English royal ladies had the monopoly of certain spleudid materials, then called baudekin, in that style. Sometimes the stripes were alternate bands of colored vaivet and cloth of gold tissue. This fashion, like history, repeats itself. A new and very lovely color, called parchment, is the latest novelty, it is a charming shade of pale yellow or rather yellowish white, more tinged with yellow than Ivory white. It is almost exactly the hue of very rich cream. The new anemone purple is nothing more or less than the pretty tint of like which has for years past been called Ophelia. There is talk of reviving still another old fashion, which is that of carrying costly handker-chiefs in lace or lace-trimned embroidery to grand entertainments. Nowadays a point lace handkerchief forms as much a part of the wedding toilet of a Parisian bride as her ivory-bound prayer-book, but is never seen at balls or dinner parties. this fashion dates from some six hundred
